OF OCCUPATIONAL  
HYGIENISTS INC**

# Seminar Series

## BASIC PRINCIPLES IN OCCUPATIONAL HYGIENE

### COURSE AIM

To provide participants with a sound understanding of the basic principles of occupational hygiene.

### LEARNING OUTCOMES

Participants will be able to:

- Describe the general basic approach to the recognition of occupational hygiene hazards including the role of occupational hygiene monitoring.
- Select the appropriate equipment to measure specific occupational hygiene hazards and devise a suitable sampling strategy
- Present the results in a useful format
- Recommend suitable control strategies

### OUTLINE

- Introduction to Occupational Hygiene
- Introduction to Toxicology, Physiology & Epidemiology
- Exposure Standards & Dose
- Physical Hazards including noise, thermal environment, vibration, lighting and radiation; ionising and non-ionising
- Chemical Hazards including sampling equipment, aerosols, gases & vapours and fibres
- Biological Hazards
- The Practice of Occupational Hygiene; The Walk Through Survey and Sampling Strategies; Controls; The Hierarchy of Control; Ventilation and PPE
- Information Sources

### PRESENTERS

**Samantha Clarke** – Samantha has a background in physiology, human movement and OHS, and has been working in occupational hygiene and OHS since 1996. In 2005, Samantha won the Draegar Australia 'Young Hygienist Award'. Samantha is a Full Member and COH of the AIOH. With previous experience in the aluminium industry and various consultancies around the country and overseas, Samantha currently enjoys supporting Tasmanian businesses as Director/Senior Consultant of her own company, Fresh Risk Solutions Pty Ltd.

**Clive Curl** – Clive has a background in chemistry and experience in the pharmaceutical, textile and aluminium industries. With over 20 years experience in OHS Clive has for the past 16 years provided the occupational hygiene service to an aluminium company with additional accountabilities in health and analytical services. Clive is a Full Member and COH of the AIOH and maintains membership of the Royal Society of Chemistry MRSC and the Royal Australian Chemical Institute MRACI C Chem.

### FURTHER INFORMATION
